FLUTED UPHOLSTERY

Studio Sofa, Barnum 024

STUDIO SOFA

In Midtown Manhattan in 1977, a former TV studio and opera house was turned into the iconic nightclub, Studio 54. Amidst the unforgettable parties, a fluted upholstered sofa bore witness to the revelries. Four decades later, it became the spark of inspiration for the Studio collection — a design echoing the bold and expressive forms of late 70s sofa styles, refined in a contemporary way, giving the series its unique identity.

The original concept for Studio drew inspiration from the sunken lounge sofas of the 1970s. Its aim was to infuse the relaxed, laid-back essence of lounging into the design, while offering a higher degree of modernity and flexibility. Featuring a versatile yet simple system of modules, Studio offers a variety of options to form numerous settings, shapes and styles. It seamlessly blends into all sorts of environments, be it private residences, hospitality settings, offices and commercial spaces. With a 360-degree finish, each module can be a stand-alone piece or reversed to create a two-sided sofa.

Studio is crafted in Northeast Italy by a family-owned company, with a rich legacy of upholstery production.

Considerable time and effort have been dedicated to ensuring the right comfort without compromising the look of the fluted upholstery. Achieved through a soft foam blend, Studio offers an unparalleled level of comfort. Additionally, a part of the wooden construction at the back has been replaced with foam, acting as a built-in cushion, allowing for a softer recline. The movable armrest cushion further adds convenience and adaptability.

Skilled craftsmen and women work by hand to upholster with great attention to detail. The process of creating each sofa spans several weeks and involves tasks such as careful stretching of the fabric, reflecting a dedication to exceptional craftsmanship at the highest quality standard.

DEEPER SEAT FOR ULTIMATE RELAXATION

The versatile collection consists of a regular sofa and a lounge sofa with a deeper seat, both available with or without armrest. To create a cohesive expression and accommodate diverse needs, the collection also upholds a bench and pouf. Furthermore, part of the series is also available for outdoors.

Studio is defined by its versatility, adaptability and exceptional quality, designed to meet the needs of today. Drawing inspiration from a vibrant and bold era, it celebrates the timeless values of peace, love and iconic fluted upholstery.
